

Xu Xin new DHS BH Rubber

For the past two competitions (Grand Finals & Chinese Trials 2014. for WTTTC Tokyo), do you think that Xu Xin's BH is much better than before?

Xu Xin BH Rubber

It was obviously shown that his BH had improved a lot. Apart from his ability, do you know there is any other reason for that? Have you thought about his backhand rubber had been changed already? Yes, he has changed recently! As DHS official & his coach said that his rubber had been changed from Butterfly to DHS. It was combined with Japan sponge and DHS topsheet.

Why Xu Xin changed ?

If you know about the characteristics of Butterfly & DHS, you will probably get the answer. DHS has advantage of their top-sheet with much powerful spin, while Butterfly sponge is the most brilliant one in the world, therefore, Chinese National team coach Liu Guoliang had recommended to Xu Xin changed this new tailor-made rubber! It is 2.1 mm thickness with 38 hardness.
